

Serial No. 09/502,875

Attorney Docket No. 10527US15

REMARKS

Applicants wish to express their appreciation to Examiner Hewitt for his thorough examination of their application and the cited prior art. His suggestions and constructive comments concerning the foregoing amendments during the September 6, 2001 telephone interview were most helpful.

Applicants are making the foregoing amendments to better clarify applicants' contribution to the art. The amendments to the specification were made to emphasize that the user attract mode does not need to include graphics. Applicants submit that amendments to the specification do not include new matter.

Applicants further submit that all the claims now in the application are drawn to patentable subject matter and that the application is now in condition to be passed to issue. Prompt action in this regard is requested.

Respectfully submitted,

Date: September 6, 2001

John J. Held
